Jabra

Acoustics design Engineer - Passionate about innovating? - Ballerup - GN Netcom - Denmark

published: March 11, 2011

GN Netcom goes an extra mile to offers its customer's products with outstanding audio quality. We are expanding the audio engineering team and are looking for an Electro- Acoustic Design Engineer.

We can offer you to work in a highly professional environment with a motivated and competent team which develops state-of-art audio and speech processing technologies. You will have access to world class development tools, R&D laboratories and test facilities.

You will be responsible for the acoustic design, implementation, validation and certification of programs. Additional you will be a key stakeholder in development of methodologies and innovation of audio technologies.

You will be working with-in cross functional project teams as well as in a strong functional discipline. In the programs you will be responsible for the entire acoustical system and work in close cooperation with mechanical engineers and DSP engineers to enhance the audio quality even further.

Your main tasks will be:

- Specifying audio performance requirements in close corporation with product managers
- Design, development, implementation, and validation of acoustical concepts for headsets, speaker phones and other handsfree audio products all presenting interesting acoustic challenges due to their size constraint and mobility
- Participation in commodity teams and interaction with component vendors during development of new customer specific components

- Driving one or more initiatives related to methodology improvements
- Tracking industry standardizations development

Required Skills and Experience:

- MSCEE or equivalent specializing in electro-acoustics
- Experience in design, modeling, implementation and validation of audio systems
- Strong tuning, testing and debugging skills
- Experience in acoustics lab equipment and test methods

Contact information:

If you need additional information then don't hesitate to contact Audio Manager Bo Schmidt at +45 45 75 00 00

To apply:

To apply, please upload a short cover letter with your motivation for applying together with your CV (preferably in one document). Use the apply button at the top of this page or at » <http://careers.gn.com/vacancies/>

Please apply no later than April 17th, 2011

About GN Netcom

Through its Jabra brand, GN Netcom is a world leader in innovative headset solutions. With around 825 employees and sales offices around the world, GN Netcom develops and markets a broad range of wireless headsets and in-car speakerphones for mobile users and both wireless and corded headsets for contact center and office-based users. GN Netcom is a subsidiary of GN Store Nord A/S.
