#### Leadership role in international IT transformation process

Reporting to the NAV Development Manager in GN Resound, you will act as coach and mentor for a team consisting of 6 experienced and dedicated Navision developers. As Senior NAV Developer/Architect, you will focus on and work with governing the company's ERP architecture and ensuring that development is carried out according to best practices following standard methodologies and requirements. Design, documentation, review and risk management are other key

elements of this position. In addition to this, you will play an important role in the company's Architecture Board, impacting and deciding on the future IT platform strategy and giving directions for utilizing new technologies and systems. As the position has a global scope, you should expect 15-30 travel days a year to the company's international sites in Europe, Asia and North America.

### **Experienced NAV Professional**

You have several years of experience as NAV Developer and/or Architect and you most likely possess knowledge of other relevant technologies and platforms. Experience within production or distribution is a must. You have experience from international environments and you are fluent in oral and written English. As an individual, you are open-minded and team-oriented, you possess great interpersonal skills and you know how to motivate your peers. You have great overview and know how to prioritize time and resources in order to deliver high-level quality in an efficient way.

### **Responsibility, impact and opportunities**

You are offered a challenging position with high-level responsibility in a prospering, fast-paced and development-oriented company. In the years to come there will be increased focus on IT transformation and its business impact and you will get the opportunity to play a significant role in this process. Depending on your qualifications and motivation, your responsibilities are likely to increase rapidly. The position therefore offers many opportunities for both personal and professional development.

If the job is interesting to you, please apply through [www.mercuriurval.dk](http://www.mercuriurval.dk) (reference number: DK-AVS-45586) and upload your application and CV.
