#### **Enterprise Architect - Ballerup - GN ReSound - Denmark**

published: March 23, 2011

#### **ENTERPRISE ARCHITECT**

GN ReSound Group is a leading international manufacturer of advanced hearing health care solutions. GN ReSound offers a full range of hearing instruments and accessories under the ReSound, Beltone and Interton brands. Through its subsidiary GN Otometrics, GN ReSound also creates innovative solutions for all types of ear-related diagnostics and is the largest global supplier of computerized audiology and hearing instrument fitting equipment. GN ReSound is headquartered in Copenhagen, and has subsidiaries in 23 countries and distributors in 60 more.

GN ReSound Group's manufacturing is mainly based at the company's factory in Xiamen, China. GN ReSound Group has about 3,600 employees and is a subsidiary of GN Store Nord A/S which is listed on OMX Nordic Exchange Copenhagen.

Please visit [www.gnresound-group.com](http://www.gnresound-group.com) for further information.

#### **International IT transformation challenge**

As Enterprise Architect in GN Resound you will play a major role in developing and carrying out the company's international IT transformation strategy. Reporting to the Application Development Director, you will be responsible for recommendations regarding GN Resound's application landscape in close co-operation with the Application Management Team. You will play a pivotal role not only in keeping the current setup operational, but also in transforming the landscape into an

architecture that better meets the future global setup of the company's business. You will be responsible for designing and reviewing major solution designs and you will represent IT in the company's Business Process Forum. The position has a great international scope and you should expect 20-40 days of travelling to GN Resound locations in Europe, Asia and North America.

### **Business-oriented and performance driven IT professional**

You have solid experience with major IT projects from international environments and you possess expert knowledge of ERP application architecture and related products. You most likely have experience from MD AX/NAV environments from related internal enterprise architect positions or external consulting positions. Fluency in oral and written English is a must. As an individual, you are energetic, persistent and team-oriented. You are a strong communicator and have solid project and stakeholder management skills. You have a strategic mindset and are driven by impacting the business and delivering visible results while maintaining a high level of customer focus.

### **Responsibility, impact and opportunities**

You are offered a challenging position with high-level responsibility in a prospering, fast-paced and development-oriented company. In the years to come there will be increased focus on IT transformation and its business impact and you will get the opportunity to play a significant role in this process. Furthermore, the position offers many opportunities for both personal and professional development in a global organisation.

If the job is interesting to you, please apply through [www.mercuriurval.dk](http://www.mercuriurval.dk) (reference number: DK-AVS-45587) and upload your application and CV.
