

## Functional Safety Manager

Denmark

**Job reference:**DK02506

Do you take a glowing interest in functional safety and quality assurance? Then please read on and learn about the job as Functional Safety Manager at Danfoss Power Electronics. You will join the Global Test department in a dynamic, fast-growing organisation. Our responsibility covers the electrical and functional safety of Danfoss Power Electronics' products, including drives and solar inverters. We continuously improve our methods and approaches for better product safety, and this is where you come in.

### **Spearhead the functional safety agenda**

Your objective is to drive functional safety, not only within relevant projects but across the entire Power Electronics organisation. Being focused on safety life cycle management, you take the steps to further develop the life cycle management system (as described in the IEC61508 standard) within our global R&D function and Supply Chain. As such you will:

- drive change management from a functional safety point of view
- enter into constructive dialogue with external assessors like TÜV, IFA and UL
- extract the essences from various functional safety standards and integrate these into our internal processes

This could be your opportunity to join a trendsetter of functional safety within Power Electronics and make an impact throughout our organisation.

### **A mind set on quality and functional safety**

Besides your degree at minimum Bachelor's level, you have added 5 years' experience of electrical knowledge to your CV. From this experience you have also gained insight into the QA area as well as functional safety management. This has given you the tools to drive change processes across a large organisation, and due to your comprehensive view you know exactly how to focus your efforts. Your mind is set on quality and functional safety, and you have the skills to communicate your agenda in clear language. You are also known for your ability to work cross-organisationally with colleagues as well as external stakeholders. In addition, you must expect some travel days.

### **For further information about the position,**

please contact Manager of Functional/Electrical Safety, Preben Albrecht at +45 7488 3238.
