## Power your life

Vestas offers you challenging career opportunities within a global organisation. As the world's leading supplier of wind power solutions, we have delivered more than 40,000 wind turbines in 65 countries. Over 20,000 employees are eager to welcome new, dedicated colleagues on our journey to a more sustainable future. Would you like to join us?

## Department

Vestas Northern Europe is the Sales Business Unit for Scandinavia, UK, Ireland, Poland and the Baltic's and we are responsible for Sales, Project & Execution and Service of wind farms throughout these countries. Our Customers can mainly be found among larger power supply companies and professional investors.

The technology department is responsible for supporting our sales department through the sales process in terms of technological and wind site aspects.

## Responsibilities and Tasks

- Answering ad-hoc requests from Service technicians
- Support the customer care group in technical matters
- Daily contact with NEU business units in relation to various technical questions
- Coordinate the contact between R&D Operations and Technology
- Technical knowledge sharing with the rest of the group.
- Technical and contractual dialogue with sub-suppliers to projects and international customers.
- Technical follow up on gearbox related jobs with focus on turbine performance

## Qualifications and Work Experience

- Technical education as a mechanic, electrician etc.
- Minimum 3 years of working experience from the wind industry
- High know-how level of wind turbine gearboxes.
- High know-how level of mechanical components in wind turbines
- Understanding of the customers' view on and demands to large engineering projects.
- Experience in coordination with international partners and sub-suppliers.
- Excellent English language skills

## What we offer

We are a team of skilled and committed colleagues who are all enthusiastic about wind energy. We have a good atmosphere within the department and everyone is always prepared to help out when needed. We are a global company with an informal but professional approach to the daily business and assignments.
