

Senior Support Coordinator

Denmark

Job reference:DK02534

Are you looking for a challenging opportunity at a company that leads the way for commercial and residential solar power solutions? If so, the job as Senior Support Coordinator at Danfoss Solar Inverters could be your next career step. You will have the opportunity to be part of a new area with DSI and of a team that ensures high quality and dedication to developing solar energy applications.

Coordination of smaller cross-organisational projects

You will have responsibility for coordinating defined functional areas within a development project and/or coordinate new features in our existing products. You will work very closely together with Project Managers and ensure timely delivery of the development project. In addition, you will:

- work across the organisation when being part of a development project
- work across the organisation in a product maintenance project where you are the project manager
- drive projects from start to finish
- be responsible for coordinating, planning, and finishing projects

You will work with competent and dedicated people in an international organisation and have the opportunity for growing professionally when building and supporting Danfoss Solar Inverters. We are looking for someone dedicated to learn the ins and outs of our applications and who will grow as a Project Manager. We will provide training and development opportunities to ensure that you will be confident in your skills. Your professional growth is as important to us as our own.

Technical background and focus on quality and details

You hold a degree as Engineer or similar and have at least 2 years' experience in coordinating tasks - preferably in a development project. Most likely, you are skilled within project management and have a desire to work with renewable energy. Additionally, you are proactive and attentive to details, as well as you can maintain focus throughout a busy day and drive a project towards success. You have an eye for quality and can work independently and remain customer service and task-minded in a dynamic and busy environment. As Danfoss is an international organisation, you will need proficiency in technical Danish and English, both written and spoken.

For further information about the position,

please contact Functional Manager, Per Boysen at +45 4024 0373.

Danfoss Power Electronics består af tre forretningsenheder: VLT® Drives, Danfoss Customized Power Electronics og Danfoss Solar Inverters og har udviklings- og produktionscentre i Kina, USA, Danmark og Tyskland. Vi leverer kvalitetsløsninger inden for effektelektronik, som hovedsageligt indgår i applikationer såsom pumper, elektriske motorer, transportbånd og kraner. Derudover er vi blandt verdens førende

udviklere af solar invertere.

Danfoss A/S er en af Danmarks største industrikoncerner. Vi har en årlig omsætning på ca. 22 mia. kroner og beskæftiger ca. 26.000 medarbejdere i hele verden.

Vi leverer løsninger indenfor klima- og energiområdet, et område vi anser for at være en afgørende drivkraft i verdensøkonomien fremover. Vi tager føringen på vores forretningsområder ved at være pålidelige, uovertrufne og innovative.

Kunden er i centrum, uanset hvor man befinder sig i Danfoss. Vores arbejde bygger på vores adfærd, som tillidsfulde, innovative, globale medarbejdere – med respekt for lokale kulturer og med bæredygtige resultater for øje.
