

## TS Quality Engineer

Denmark

**Job reference:**DK02451

If second-to-none quality is the way you want things to be done, this is a unique opportunity to put your mark on the systems and total mindset in a vital business area within a successful global company. You will join Automatic Controls and play a key role in the building of a TS quality culture, and you will actively support optimisations in order to meet our ambitious goals.

### Help to build a second-to-none quality culture

You will report directly to the Operations Director and have a close cooperation with our Quality Manager as well as Technical Service and Customer Quality Managers. Your overall objectives are to reduce the number of claims and to help strengthen our quality by creating a true quality culture across functions and departments. Your primary tools are TS pilots and Kaizen activities as facilitator using Six Sigma as system. Your tasks will be:

- problem solving based on analysis of market error statistics
- carry out TS pilots as Black Belt
- take the lead in TS focused customer audits
- structure our TS deliverables with 100% focus on customer orientation
- verification of corrective and preventive actions
- act as consultant/project manager in optimisation projects

### Engineer with Six Sigma certification and TS16949 experience

Your Engineering degree (e.g. Mechanical or Production) is backed by a Six Sigma certification at minimum Green Belt level – if you not already are Black Belt, it is your ambition to get the certification within a short amount of time. You have experience with TS16949, and maybe you are also educated as Auditor. As person you are very result-oriented and you base your high performance work on hard-core facts and the ability to see possibilities instead of limitations. You will have a great number of contacts across functions, so it is crucial that you can build and maintain personal relations. In this you use your natural respect for others competencies and opinions.

### For further information about the position,

please contact Operations Director, Rikke Vesterbæk at +45 2949 5130.

---

*Danfoss A/S is one of Denmark's largest industrial companies. We have an annual turnover of around DKK 22 billion, and have around 26,000 employees worldwide.*

*We provide solutions within Climate and Energy, a sector we see as a major driving force in the future world economy. We show leadership in business through reliability, excellence and innovation. No matter where you find yourself at Danfoss, the customer is at the center. Our work reflects our corporate behavior; trustworthy, innovative, global, with respect for local cultures and constantly working towards sustainable results.*
